

SHIP-IN AVIONICS REPAIR

Our Pulse Department is staffed with some of the most experienced technicians in the industry. We strive to give you the most cost effective repair or overhaul, with the quickest turn time possible. We have capabilities on a wide range of Radar up through ARINC 700, Transponders up to Mode S, Radio Altimeters up to ARINC 700, and DME's from Corporate to Air Transport. ASI utilizes the latest testing procedures and equipment to give you the best quality workmanship done to factory standards. ASI is a warranty repair station for Rockwell Collins and Honeywell among others. Send in your unit for a quote today!
